## Welcome

On behalf of the LIFE Steering Committee, welcome to today's LIFE Regional Meeting, one of six taking place around the State. This year's theme, This is your LIFE, reflects our goal of providing community leaders and service providers with useful, timely information to assist the growing number of low income consumers struggling to make ends meet in these economically challenging times. Today's program will supply valuable resources on energy efficiency assistance programs, energy affordability, and highlight some regional best practices. We have also set aside time for networking and to learn from each other. By the end of the day, we hope you'll leave feeling more knowledgeable, connected and energized.
