The [Cleaner, Greener Communities \(CGC\) Program](#) was announced by Governor Cuomo in his 2011 State of the State address as a competitive grant program to encourage communities to develop and implement regional sustainable growth strategies. The primary goal of the CGC Program is to encourage communities to develop regional sustainable growth strategies in such areas as emissions control, energy efficiency, renewable energy, low-carbon transportation, and other carbon reductions. [Phase I of CGC](#) provided funding to the 10 Regional Economic Development Council (REDC) regions in New York State (NYS) for the development of Regional Sustainability Plans. [Phase II of CGC](#) offers grant funding for projects that support the goals of each region's respective sustainability planning effort. The CGC Program is funded with proceeds from the Regional Greenhouse Gas Initiative, the purpose of which is to lower carbon emissions in the participating states.

Through Round 3 of CGC II, NYSERDA is offering competitive grants for the implementation of market-transforming sustainability initiatives and projects that accelerate the adoption of sustainable planning and development practices, are innovative, create multiple community benefits, reduce carbon emissions, leverage public and private resources, and propel NYS toward an environmentally and economically vibrant and resilient future. Funding will support policy and plan development, technical assistance, and implementation of projects and initiatives that have the ability to be inspirational and replicated to expand market adoption and overall impact.

This announcement is not a solicitation for proposals. To receive the full solicitation, please visit NYSERDA's Web site at [www.nyserda.ny.gov](http://www.nyserda.ny.gov) or submit your request to [cgc@nyserda.ny.gov](mailto:cgc@nyserda.ny.gov).
